

Some people feel safer if they know the food has been irradiated. Some people feel safe if they know the food has not been irradiated.

July 1999

To: William Hubbard, Food and Drug Administration
Re: Docket No. 98N-1038
Irradiation in the Production, Processing and Handling of Food

Dear Mr. Hubbard:

As a citizen concerned about the food I eat, I strongly believe that I have a right-to-know if my food has been irradiated. Irradiated food should be clearly labeled with a statement that it was treated with radiation and it should have the international symbol for irradiated food placed in a prominent place on the label.
